Dear Southwest Technologies,

I am writing to provide you with some positive feedback on the Elasto-Gel cervical applicator. I have found your product extremely useful in that it provides both hot and cold therapy for either chronic or acute conditions thru one applicator. It is superior to other applicators in it's ability to comfortably wrap around the cervical spine, effectively treating the anterior, lateral and posterior soft tissues. I plan on using Elasto-Gel products exclusively in the future.

Sincerely,

Kevin M. Quaas, D.C.
